Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' that is endorsed in the Kingdom of Saudi Arabia. A review of condensed consolidated interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

2. <u>BASIS OF PREPARATION</u>

2.1 Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with the International Accounting Standards (IAS 34) "Interim Financial Reporting" as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by the Saudi Organization for Chartered and professional Accountants ("SOCPA") (collectively referred to as "IFRS as endorsed in KSA") and should be read in conjunction with the Group's last annual financial statements as at and for the year ended 31 December 2023 ("last annual financial statements").

However, selected accounting policies and explanatory notes have been included to explain the events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the last annual financial statements. NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (UNAUDITED)

For the six-month period ended 30 June 2024 (Expressed in Saudi Arabian Riyals, unless otherwise specified)

2. BASIS OF PREPARATION (continued)

2.3 Basis of consolidation

The condensed consolidated interim financial statements comprise the financial statements of the Company and its subsidiary as at and for the six-month period ended 30 June 2024 (note 1). Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if, and only if, the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- > Exposure, or rights, to variable returns from its involvement with the investee; and
- > The ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- > The contractual arrangement with the other vote holders of the investee;
- > Rights arising from other contractual arrangements; and
- > The Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired during the year are included in the condensed consolidated interim financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary. Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent company and to the non-controlling interests. All intra-group assets and liabilities, equity, income and expenses relating to transactions between members of the Group are eliminated in full on consolidation. A change in ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- > Derecognises the assets (including goodwill) and liabilities of the subsidiary;
- > Derecognises the carrying amount of any non-controlling interest;
- > Derecognises the cumulative translation differences recorded in equity;
- Recognises the fair value of consideration received;
- Recognises the fair value of any investment retained;
- Recognises any surplus or deficit in profit or loss; and
- Reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

2. BASIS OF PREPARATION (continued)

2.4 Functional and presentation currency

These condensed consolidated interim financial statements are presented in Saudi Arabian Riyals (SR) which is the functional and presentation currency of the Company and its subsidiary. All amounts have been rounded to the nearest SR, unless otherwise stated.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Group's condensed consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of revenues, expenses, assets, liabilities and accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

The Group based its assumptions and estimates on parameters available when the condensed consolidated interim financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

The significant judgments exercised in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements for the year ended 31 December 2023.

4. <u>MATERIAL ACCOUNTING POLICIES</u>

The accounting policies adopted in the preparation of the condensed consolidated interim financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2023, except for the adoption of new standards, interpretations and amendments effective as at 1 January 2024, as mentioned in note 5.1. The Group has not early adopted any standard, interpretation, or amendment that has been issued but is not yet effective.

5. <u>NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS</u>

5.1 Standards, interpretations and amendments issued

This table lists the recent changes to the Standards that are required to be applied for an annual period beginning after 1 January 2024 and that are available for early adoption in annual periods beginning on 1 January 2024.

6. <u>SEGMENT INFORMATION</u>

The Group operates in three regions in the Kingdom of Saudi Arabia, which are its reportable segments. These regions are identified as a separate reportable segment because the Group managed them separately.

The management has identified these business units based on their geographical locations. The following summary describes the operations of each reportable segment.

Reportable segments	<u>Operations</u>
Khamis Mushait	Production of flour and feed
Al Jumum	Production of flour and bran
Al Jowf	Production of flour and bran

The management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on income and is measured consistently in the financial statements.

Transfer prices between operating segments are on cost and any transmission and distribution costs are recovered from the segments in a manner similar to transactions with third parties.

19. EARNINGS PER SHARE

Basic and diluted earnings per share

The calculation of basic earnings per share has been based on the distributable earnings attributable to shareholder of ordinary shares and the weighted average number of ordinary shares outstanding at the date of the condensed consolidated interim financial statements, after adjustment for the effects of all dilutive potential ordinary shares, if any.

	For the three-month period ended 30 June		For the six-month period ended 30 June	
	<u>2024</u>	2023	<u>2024</u>	2023
	(Unaudited)	(Unaudited)	(Unaudited)	(Unaudited)
Profit for the period Weighted average number of ordinary shares for basic and	44,508,564	41,125,789	109,491,996	105,236,265
diluted EPS	81,013,680	81,832,000	81,400,359	81,832,000
Earnings per share - basic and diluted	0.55	0.50	1.35	1.29

The calculation for weighted average number of ordinary shares for basic and diluted EPS has been adjusted for the effect of treasury shares (refer note 16.2). Further, there are no transactions that reduce the diluted earnings per share and therefore, the earnings per diluted share are not different from the basic earnings per share.

During 2023, the Company split the nominal value of each of the shares from SR 10 to SR 1 per share while keeping the total share capital unchanged and accordingly the number of the total shares of the Company has increased from 8,183,200 shares to 81,832,000 shares without any impact on the effective shareholding interest. The per share calculations for both basic and diluted EPS reflects the retrospective adjustment for this increase in number of shares.

Fair value hierarchy

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Financial instruments comprise of financial assets and financial liabilities. The Group's financial assets consist of cash and bank balances, short-term deposits, trade receivables, due from related parties and other receivables. Its financial liabilities consist of trade and other payables, long-term loans, accrued finance charges and obligations under finance lease.

The management assessed that fair value of cash and bank balances, short-term deposits, trade receivables, due from relate parties, other receivables, trade and other payables, long-term loans, accrued finance charges and obligations under finance lease approximate their carrying amounts, largely due to the short-term maturities of these instruments except for the long-term loans which carries floating rate based on the market terms.

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole, as follows:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; or

Level 3 -Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

There are no financial instruments recognised at fair value and there were no transfers between levels of fair value measurements in 2024 and 2023. No transfers between any levels of the fair value hierarchy took place in the equivalent comparative period.
